Join Wonder's fast-growing network of freelance researchers!

([FAQs](#), [Application](#), and details below)

Wonder (askwonder.com) is a personal research assistant that saves people time by getting detailed answers and resources delivered to their inboxes by a trusted network of researchers.

We have built a global network of freelance researchers, and have found that many of our best and most passionate researchers are actually LIS professionals and students, as the role combines a love of knowledge and the skills of an online reference librarian. Our researchers get to choose which client questions they want to work on, and can work as frequently or infrequently as they like. They also have the opportunity to network with peers and learn about new trends and industries.

Here are some example questions our clients ask:

- [What are the economics of Valentine's Day?](#)
- [Why would AOL or Verizon be interested in a strategic investment in the start-up Rollout.io?](#)
- [What are 5 new trends in online food ordering?](#)
- [What's the market landscape for teacher training in Egypt?](#)

PAYMENT

At Wonder you work on your own schedule and we pay per research request you complete. The price of each research request depends on several factors, including how complex a request is and how quickly the client needs the research back, but typically ranges from \$8-36 each. Active researches can earn \$2,000 or more per month.

PERKS

- Network with peers in a global community of independent researchers
- Put your LIS skills to good use, from wherever you are, in your spare time
- Build up a certified portfolio of high-level research and analysis
- Earn money on your own schedule
- Learn about new industries and access a growing database of original research

APPLICATION

To apply, please continue to our online application available here: askwonder.com/application. We'll give you a mock research request to complete to assess your fit with the Wonder Research Network.
