[Librarian STEM, Instruction, and Assessment](#)/ McDaniel College – Westminster, MD

LRC Manager/ Fortis College/ Landover, MD/ The position is LRC Manager for Fortis College in Landover, MD. We're focused on the healthcare field with both AA degrees and certificates available to our wonderfully diverse student population. We also have a small program to help students to earn their high school diplomas so they can continue on with their educational journeys. Although this position is as a solo librarian, there is a strong and helpful network of other LRC Managers at our sister campuses available. This is a great opportunity to get hands-on experience in a wide variety of library duties, including collection development and supervising the student workers. Comfort with basic office equipment (i.e. loading and un-jamming a copier) and the ability to help students with some troubleshooting of devices is helpful. It would be ideal for someone with a background or interest in distance learning as we will be launching a hybrid program later this year. This full time position is open to recent grads and current MLIS students (including students in their first term). Those with a BA in LIS and

a strong library work history may also apply. Unfortunately, relocation assistance is not available. Landover is close to Washington, DC , Annapolis, MD, Alexandria, VA. The DMV metro area is a great place to live and work with plenty to do and lots of history to enjoy. The campus is metro accessible (just a 5 minute walk from the New Carrollton station) and right off the Beltway. Please contact Dr. Cyndie Shadow at CShadow@FortisCollege.edu for more information. Position Summary: The Learning Resource Center Manager maintains and develops a Learning Resource Center that provides print and online student resource materials for all programs offered at the school. The LRC Manager also maintains faculty resource materials to enhance instructor skills, offers assistance to students who are doing research projects or studying to pass licensure exams, and ensures that resource materials are available online for use in all classrooms and at home. Essential Duties and Responsibilities: Abide by the policies and procedures of the institutions. Contribute to the development of the program's philosophy, objectives, and services, and assure fulfillment of standards of all accreditation and regulatory agencies. Promote positive image and reputation of the LRC Program and all programs at the institutions. Conduct student LRC orientation and information literacy training sessions at the start of each term for all new students. Conduct group or individual orientation sessions for new faculty at the start of each term including training in LRC resources. Provide LRC & classroom technology orientation to new faculty, and provide ongoing training on new technology to all faculty. Mentor and provide direction to the work study students. Work directly with faculty to determine resources needed to complement instructional delivery, to support the curriculum, and to provide relevant student learning experiences. Provide support to faculty – reference services (including literature searches) to include preparing bibliographies to support lesson planning, professional activities, research, and faculty development; work with student groups in LRC at faculty request; assist with PowerPoint presentation development, assist with implementation of new instructional technologies in the classroom, etc. Assure that all IT technology in classrooms and LRC is operational at all times. Manage the LRC collection including collection development: checking in journals and filing missing journal claims, taking faculty requests for new titles, processing new books and adding them to the collection Maintain the online library catalog Provide input to updating and maintenance of the LRC website. Monitor the LRC to assure all users are finding information they need and using resources appropriately Conduct annual inventory Work either independently or in collaboration with other MS-credentialed LRC staff on LRC program projects Attend Faculty meetings, Curriculum Committee meetings, and participate in professional development programs with the faculty. Provide input to accreditation submissions related to library and information resources and technology, and conduct tours and information sessions during accreditation site visits. Plan and conduct quarterly Advisory Board meetings. Provide input to the school-wide and corporate annual budget development for the LRC Program. Administer library assessment methods, collect data, and summarize and communicate results. Perform other duties as assigned. Maintain regular and reliable attendance. Skills/Competencies/Qualifications: Experience and or education in health sciences librarianship (preferred) Comfort level with IT hardware Proficiency in library software Exceptional communication and customer service skills Work Hours: May vary daily, and evening and weekend hours may be required Working Environment: Interior/Office
